

WELCOME TO IMAGING ASSOCIATES OF PROVIDENCE

The difference is clear.

Here at Imaging Associates, patients enjoy a warm, caring atmosphere that's more like a spa than a hospital—and doctors get all the advantages of images with superior clarity, reviewed immediately by the same trusted radiologists who have been working with Providence Hospital for over 35 years.

Imaging Associates of Providence is an affiliate of Providence Health System in Alaska, offering the very latest in outpatient medical technology and experienced care, all without the confines of a hospital setting.

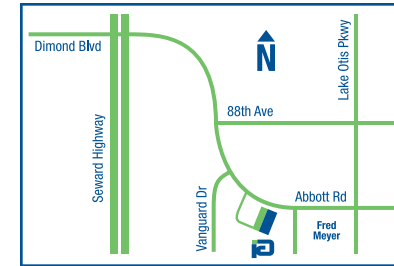

At Imaging Associates, trusted Providence radiologists care for you in a non-hospital setting.

A Providence Partner

Enjoy the Ultimate in Comfort and Convenience

Imaging Associates is a patient-centered imaging center that caters to your needs. In addition to highly advanced diagnostic testing services, we offer you comfort and convenience second to none, including:

Same-day appointments

There's nothing more frustrating than waiting. That's why we've made a commitment to offer same-day appointments whenever possible.

Convenient locations

Our South Anchorage center is on Abbott Road near Fred Meyer; our Mat-Su Valley center is just off the Trunk Road exit, convenient for both Wasilla and Palmer residents.

Easy parking

Both of our locations offer easy parking right in front of our facility. All parking spots are just a few steps away from the front door.

Comfortable, friendly atmosphere

For the brief time you're here, you'll enjoy a warm, relaxing atmosphere. Our friendly staff will put you at ease and help make your appointment go quickly and efficiently.

We may already have your records

If you've been a patient at Providence, your records are already in our system. There's no need to pick up or send over previous images. With your permission, we can access them electronically.

Alaska's Most Advanced Imaging Technology

3T & Short Bore MRI

Imaging Associates features the most powerful MRI in Alaska along with a high field short bore MRI for larger or claustrophobic patients.

CT or "CAT" Scan

Our low dose, 40-slice CT scanners can use less radiation and feature 3D technology that allows radiologists to examine results from every angle.

Digital Mammography

We offer the very latest in digital mammography, read by Alaska's most trusted radiologists—and we can get you in and out in 25 minutes.

Advanced Ultrasound

Our state-of-the-art ultrasound technologies enable us to produce excellent images and offer new ultrasound-guided procedures.

Digital X-Ray

With the latest in digital radiology, Imaging Associates produces precise images, with results delivered quickly to your doctor.

Bone Densitometry

Our Mat-Su imaging center offers bone density screenings of superior image quality and precision, with one-pass technology.

Varicose Vein Treatment

We offer patients a fast, effective way to eliminate varicose veins without surgery or downtime.

About Us

The radiologist group at Providence, Alaska Radiology Associates, created Imaging Associates of Providence in partnership with Providence Health System in 2006. Together, we are dedicated to bringing advanced technologies to the state—and to delivering patient care of the highest quality.
